

HYDROFLOW

Aquor Water Systems

The next generation of water valves

Re-Inventing the way people access water outdoors

A durable, aesthetically pleasing, low-profile water outlet for your home.

No more leaks, drips or hassle threading on garden hoses. Marine-grade stainless steel valve allows you to access water instantly, any time you need it.

Just plug in the hose connector, and water turns on automatically

Features

- ✓ Manufactured with non-toxic, lead-free stainless steel and eco-friendly polymers Access
- ✓ Access water instantly by connecting under fullwater pressure.
- ✓ Stainless steel operating rod and pressure-closedvalve provide zero-maintenance reliability for years.
- ✓ Hydrant automatically self-drains upondisconnection to provide freeze protection.
- ✓ Hydrant comes standard with 1/2" female BSP inlet.
